USA is not denying anymore the existence of the famous AREA51, it is visible also in google earth, I believe That's because area51 is not so important anymore, because they have other secret bases..

-Did you heard about Dulce base? (where supposedly they lead the abducted people).

Yes, they do genetics and cloning research there, and build programmed life forms that look like the alleged "Grays". But there are no ETs there. Just things that look like ETs.

-The military witnesses that you interviewed are heroes, because there is a risk, I read some interviews and watched google videos, did someone had problems?

No, none of them have had any problems related to being one of our witnesses.

For example it is known that many that had said truths had had problems , like William Cooper (he was an U.S Air force military) who wrote a book about ufos, "Behold a Pale Horse "

http://en.wikipedia.org/wiki/Milton_William_Cooper

Disclosure Project desires that Government release information about extraterrestrial technology and propulsion systems, I suppose they never will go to want to disclose

this info because oil industries are very strong and want profit..

But I read something about free-energy and zero-point and that many scientists who studied that had disappeared , what do you think about it?

Some scientists have been harassed and threatened, and some killed. However, please see our new Orion Project - at www.TheOrionProject.org for more information on what we're doing to get inventors to work together.

-And what about element 115 that Bob lazar spoken ?

<http://www.boblazar.com/closed/element.htm>

We dont have any information about that.

-Disclosure project only investigates the Ufo subjects ?

Yes.

Do you believe that there are secret societies like the illuminati ,who control the CIA and all intelligence agencies?

Yes.

What do you think about "Alternative III project" ? There are humans secretly on Mars'?

We don't know have any confirmation about that.

What are the crop-circles? Messages from the extraterrestrials to us, or messages from aggressive extraterrestrials to other alien species who are outside ?

There are no aggressive ETs here on this planet.
 Crop circles are messages to us in various ways.

There are many religious and esoteric symbols in crop-circles...

I believe there are many alien species involved with Government, and some of them (maybe the greys) given technology to the NASA to strike other alien species, like in this video we can watch a laser from earth trying to destroying a ufo :

http://youtube.com/watch?v=E_fyoiMjpes

Do you believe it?

No. The ETs haven't given us any technologies. There are teams in classified projects who have learned about ET technologies from crashed ET craft.
